

SPOTLIGHT ON SCHOLARSHIP CERTIFICATES

Spotlight on Scholarship is an academic recognition program that honors students who participate in League-sponsored activities and who have a "B" or better grade point average. High school students of all levels of competition, of every age and grade are eligible to receive a Spotlight on Scholarship certificate.

To participate in the *Spotlight on Scholarship* program school administrators must: 1) compute the grade point averages of each student participant at the end of each activity season; 2) record the information in the appropriate space on this form; and 3) e-mail the form to the League office (srobinson@mshsl.org). League staff will send the appropriate number of certificates to each participating school.

Other program criteria require that:

- Students must be a member of a varsity, junior varsity, or "B" squad (sophomore) athletic or fine arts team.
- Students involved in Robotics, Clay Target, Visual Arts, Cheerleading and Dance Team are eligible for this award program.
- Students in adapted athletic programs are also eligible for this award. School administrators must verify that students who participate in these programs are progressing in their individual program at the expected rate.
- Students in grades seven through nine who are on varsity, junior varsity, or "B" squad teams are eligible for this award program.
- Each school must use its own system for computing the grade average of each student. The grade point average of each student shall be computed from the grading period ending closest to the end of each activity season.
- Certificate order forms must be submitted by the school principal or activities director at the end of each grading period. Each form must include the principal's or activities director's signature.

For more information about the *Spotlight on Scholarship* program, contact Sheila Robinson at 763-560-2262, ext. 493 or srobinson@mshsl.org.
