FOUNDING PURPOSES

The Minnesota State High School League is organized for the following educational purposes:

1. To provide, promote, extend, manage and administer a program of activities for youth of the schools of the state on subsection, section and state levels in the fields of athletics, speech, music and dramatics on a competitive basis, as well as such other curricular and extracurricular activities as may from time to time be sponsored by the schools of Minnesota.
2. To establish uniform and equitable rules for youth in inter-school activities.
3. To elevate standards of sportsmanship and to encourage the growth of responsible citizenship among the students, member schools and their personnel.
4. To protect youth, member schools and their personnel from exploitation by special interest groups.
5. To provide mutual benefit and relief plans for the assistance of school students injured in athletic events or supervised school activities in meeting medical and hospital expenses incurred by reason of such injuries.
6. To serve the best interests of member schools and their students by providing a medium of cooperation and coordination in educational fields of endeavor and a series of related activities on a state-wide basis, which they individually could not achieve or accomplish for their students and which aid and assist the schools in maintaining a constantly improved program.

MISSION STATEMENT

The Minnesota State High School League provides educational opportunities for students through interscholastic athletic and fine arts programs and provides leadership and support for member schools.

Education and Leadership for a Lifetime

BELIEFS

We believe that...

• Participation in school activity programs is a privilege and not a right.
• Sportmanship needs to have a constant presence in all school-based activity programs.
• Students should have an equal opportunity to participate in all activities offered by their school.
• Ethical behavior, dignity and respect are non-negotiable.
• Student participants who choose to be chemically free must be supported.
• Collaborative relationships with parents enhance a school’s opportunity to positively impact student success.
• Academic priorities must come before participation in athletic or fine arts activities.
• Positive role models and an active involvement in a student’s life by parents and others are critical to student success.
• High school activity programs are designed for student participants, and adults must serve in a supportive role.
• The success of the team is more important than individual honors.
• Compliance with school, community and League rules is essential for all activity participants.
• Participation in school-sponsored activities must be inclusive, not exclusive.
• Ethical behavior, fairness, and embracing diversity best serve students and school communities.
