### Tournament Programs

No reimbursement is allowed from Region 7AA to produce programs if a school is host to a home site high seed tournament contest. A school may request reimbursement, with documented invoice, for actual cost, up to \$200 for production of programs to host a multiple team tournament. If additional reimbursements are needed, the school must seek permission prior to the event and get approval from the Region 7AA Secretary.

Each tournament manager has the option, and is responsible to consider, promote, approve, and enter into the agreement as the designee for the Region 7AA Committee for a program that will contain advertising and/or if a program will be sold. A report must be provided by the tournament manager to the committee following the tournament. This report will include a copy of the agreement, and all accounting procedures. Considerations for tournament managers include; equality if tournaments include boys and girls, the number of programs to print, the levels of play for program distribution, the cost of programs if being sold, who receives the profit, and the total amount reimbursed to Region 7AA from program printing rights. Suggestions for managers for the share provided to Region 7AA may include: (1) a flat rate, (2) a percentage of the net profit, (3) base the amount on a per fan basis, attending the tournament, (4) or an amount per program printed.
