- Adapted officials will need to complete a separate registration. It is titled, 2023-24 School Year (Adapted Sports).
- The late fee will go into effect on July 1 for returning fall officials. Returning winter officials must register (complete payment) by September 1 and spring officials by February 1 to avoid this assessment.
- Again this year - we are asking officials to voluntarily share gender, ethnicity, and occupation information. This information will assist with our recruitment and retention initiatives.

A couple of tech tips:

- Click on the blue Register button over to the right on the Registration Dashboard, you will select your sports further in the registration portal, see the below picture.
- You will need to click a box and type your name 4-5 times in the Background Consent portion of registration. The box to click is to the left of your name.
- The best browsers to use for ArbiterSports are Firefox, Google Chrome, or Microsoft Edge. If you receive an Ooops message it is often the browser that is not working to load the page.

- Make sure you do not have pop-ups blocked.
- If any of the pages still do not load, you may need to clear your cache and/or cookies (Mac Users - <https://clear-my-cache.com/en/apple-mac-os.html> Windows Users - <https://clear-my-cache.com/en/windows.html>).

Officials Associations

If you have not already, we recommend connecting with Officials Associations. Officials Associations provide further opportunities for training and mentoring. The schools often use them for scheduling/assigning officials to games. Connecting with an Association is recommended even for officials who work lower-level contests as they do most of the scheduling for the schools.
